

International Program in Survey and Data Science (IPSDS)

attracts professionals working with data, who choose to enhance their skills through an online learning environment. With this challenging English-taught program, you will be ready to tackle fundamental changes in the ways how survey and big data are generated, integrated, and disseminated.

„International Program in Survey & Data Science connects students with various backgrounds interested in strengthening their data usage skills. Our mission is to provide an outstanding web-learning experience to tomorrow’s researchers and leaders in the area of data collection and analysis, equipping them with the expertise and knowledge to use data in an ethical and secure way.“
